#### Flood Emergency Resources

The Office of State Procurement of the Department of Administration has many [contracts](#) currently in effect that could be a source of materials, equipment and services to assist governmental entities in a time of flood. These [contracts](#) provide eligible Cooperative Purchasing Venture members and state agencies the ability to order needed goods and services without having to solicit them as the state contracts have already been solicited. State agencies can order any dollar amount that is allowed by the Contract Release without being limited by their individual delegation of authority.

This list of contracts is not a complete list of state contracts. For your convenience, we are providing this list of [State Contracts Available to Cooperative Purchasing Venture Members](#). For detailed information on any of our contracts, log in to the [secure area](#) of our website.

### **Waste and Recycling Contracts with Waste Management – Contract Release R-561, R-569, R-625, R-633, R-638, R-674, R-686, R-708, R-712, R-718, W-205, W-222**

Some agencies have received the following message from Waste Management: “Our standard Trip charge will be increasing up to \$250 per service. Payment is considered consent to this increase. Please check your service agreement and contact your WM representative with any questions.”

Please note that pricing may only be adjusted through a mutually agreed and duly executed amendment to the contract. Agencies who have contracts with Waste Management for waste and recycling services are encouraged to review their most recent invoices dating back to, at a minimum, January 2022 to ensure that trip charges have not increased without an amendment. Additionally, it is recommended that each agency also review other charges included in these invoices and compare them to contract pricing to ensure that contract pricing is being invoiced to the State.

If you have any questions or comments, please contact the contract administrator, Ryan Normandin, at [ryan.normandin@state.mn.us](mailto:ryan.normandin@state.mn.us) or 651.201.2451.

### **Emergency Procurement Planning**

Unprecedented supply chain challenges and labor shortages have impacted many vendors and sectors. Agencies should review their emergency plans with respect to their traditional vendor base and supply chains to identify areas of reliance for critical operations and establish internal contingencies in the event such product or services become significantly delayed or unavailable. OSP will continue to support agencies by focusing on the administration of master contracts and providing assistance to agencies

as they exercise their delegated authority when an enterprise solution is not practicable or in the best interest of the state.

If you need assistance or have questions please contact Luke Jannett at [Luke.Jannett@state.mn.us](mailto:Luke.Jannett@state.mn.us).

### State Agencies Only

#### Contract Coordinators - State divestment and prohibition on new acquisitions from Russian and Belarusian entities – Bill HF 4165

[This bill](#) passed both the Minnesota House of Representatives and Senate and was signed by Governor Walz. If you currently have Russian or Belarusian vendor contracts (according to the law they must be headquartered or have their principal place of business in Russia or Belarus) the bill requires that all state agencies promptly terminate existing contracts and must refrain from entering into new contracts (RFP/RFB proposals/bids from Russian and Belarusian entities should be rejected) unless the head of the state agency determines that there is no suitable alternative. Agencies are encouraged to consult with the Department of Administration's Office of State Procurement, their agency general counsel, or the Attorney General's Office about any legal compliance questions.

If you have any questions, please contact Luke Jannett at [Luke.Jannett@state.mn.us](mailto:Luke.Jannett@state.mn.us).
